Hamed Farah-Abadi

<?PHP \$Developer; ?>

Iran

Summary

In high school, I became familiar with the programming environment and launched my first website with HTML, CSS, and some PHP code. At the same time as participating in various digital marketing courses, I became acquainted with the skills of this field and was able to make my website profitable.

At this point, I became acquainted with various startups and businesses, and I am currently the digital marketing manager of a knowledge-based company in the Pardis Technology Park in Tehran.
